## HELLO.

My name is Jeff Fulton, and I'd like to join your team. Over the past fifteen years, I have led creative teams, working in corporate, local and national non-profit environments. I believe I have the right mix of leadership skills, creativity and professional experience to bring significant value to your team.

Culture is important to me. I love to develop myself and do all I can to resource those around me in a healthy way. I've managed brands in a variety of leadership roles. This has given me the privilege of leading teams ranging in size from a couple to a couple hundred. I'm passionate about developing the talent around me, and reaching creative goals by creating a collaborative team atmosphere.

I'm an experienced Art Director, Project Manager, Designer, Developer, Producer and Presenter; with excellent writing and public speaking skills. I have developed brand guidelines, negotiated contracts, and developed budgeting strategies and HR policies. I have a strong skill-set in Photoshop, Illustrator and can speak HTML, CSS, PHP, Craft CMS, Wordpress, and a little bit of Spanish. I have a wholesale printing license and have designed and delivered hundreds of thousands of dollars worth of print and environmental installations.

Thank you for your time and consideration.

  
Jeff Fulton
